Our company

About Us

Our humble beginnings...

Euro-Care Products, Philippines (ECPP) was founded in a small town in Nueva Ecija in 1997.

Our story began when husband and wife, Ronnie and Gemma Mendoza, saw the need for providing affordable and high quality medicines. Starting from a small drugstore in Brgy. San Nicolas, Gapan, ECPP grew to become one of the leading drug distributors & wholesalers, primarily in marketing generic pharmaceutical products in all parts of the country.

Through wholeheartedly understanding the needs of Filipinos, our company expanded to importing world class medicines, with partners in countries namely India, China, and Thailand among others who also share the same commitment of providing affordable and quality medicines. That is why our supply chain, local and foreign, strictly adheres to WHO GMP and are fully compliant to the requirements of the Philippine FDA.

Currently the company has a hundred products being distributed throughout the Philippines across different pharmaceutical classifications. As the company further expands its products and coverage, it is staying committed to its mission of providing affordable and quality healthcare products to Filipinos.

Our purpose
